

Dear ImageSoft,

Just a quick note to express my appreciation on a job well done by ImageSoft.

The goal of the Integrated Document Management system that ImageSoft implemented was to provide an easy to use Workflow and effective storage and retrieval system. The users of the system are very pleased with the results. ImageSoft listened carefully to our goals, what we expected the system to do, and they have met our expectations every step of the way.

ImageSoft was very generous with their time -- providing timely answers to our questions, especially in critical areas such as the creation of Workflow lifecycles.

We at St. Clair County expect a high level of performance from the companies we partner with -- if ImageSoft can satisfy our office, they can satisfy anyone's office.

Sincerely,

Bonnie Gilbert
