

One platform **Unlimited potential**

ONBASE FOR PROPERTY CASUALTY INSURERS

ON-PREMISES / CLOUD

One platform

Simplify your IT environment and reduce information silos with OnBase, a single enterprise information platform for managing content, processes and cases.

OnBase provides these **capabilities on a single platform**:

Enterprise Content Management (ECM)

525+ insurers trust OnBase for their ECM needs

Case Management

An award-winning and analyst-recognized case management platform**

Business Process Management (BPM)

Includes a highly configurable workflow engine to manage the complexity of insurance processes in a simplified manner

Capture

Capture where you need it – mail room, mfp, e-mail, fax, desktop, data stream, import processors and more to reduce the time between receive and process

Enterprise File Sync and Share (EFSS)

Available with ShareBase, easing the secure sharing of content with agents, partners, vendors and more

All solutions and applications built on OnBase are available on-premises or in the cloud and benefit from these **core platform strengths**:

Mobile

Native apps developed for ios, Android and Windows to extend your solutions to the field for Claim Field Adjusters, Loss Control Representatives, Legal Counsel, Sales Representatives and more

Integrations

Configurable tools to integrate with core and complimentary insurance solutions, including accelerators to the Guidewire InsuranceSuite

Security

Native, granular security options protect your information at rest, in motion and in use

With OnBase “One” means “One.” The OnBase platform is not a collection of separate products presented under one brand or offered by the same vendor. OnBase is truly a single technology platform sharing one database, content repository and codebase. OnBase gives you one platform to install, upgrade, secure, protect and integrate, instead of a diverse portfolio of different information technologies to manage.

Unlimited potential

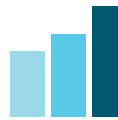

The OnBase platform provides the foundation for solutions across the insurance enterprise. OnBase has transformed 525+ insurance organizations around the world, empowering them to become more agile, efficient and effective.

One platform offers you:

Unlimited potential solutions

By combining multiple capabilities on one highly configurable and scalable platform, OnBase supports an unlimited number of solutions – from insurance-centric solutions such as New Business Processing, Underwriting, Claims, Policy Services and back office solutions. Hyland, creator of OnBase, and our global partner network brings decades of insurance industry expertise to the design, implementation and support of your solutions.

Unlimited potential to grow

Whether starting in a single department or deploying an enterprise-wide solution, it's easy to enhance existing solutions and add new departments as your needs change and your organization evolves. OnBase scales to support tens of thousands of users and trillions of documents on a single deployment, meaning you will never outgrow your OnBase system.

Unlimited potential for the future

With new OnBase version releases every year and a team dedicated to staying on the forefront of insurance, your solutions benefit from the latest technology innovations and stay up-to-date with insurance trends and compliance regulations. OnBase was designed from the group – change to ground up to be the most comprehensive, innovative, intuitive, best-performing enterprise information platform on the planet.
